

EARTHSMART Actions

Stormwater Quality Action 6: Expand your impact

Use this document to guide you in reviewing the actions that you took in Action 5 and expanding on your impact.

Evaluate your impact

1. What impact did your actions have on the presence of pollutants in your neighborhood?
 No visible reduction in pollutants, at least not yet
 A minor but visible reduction in pollutants
 Substantial reduction in pollutants visible in my neighborhood

Expand your impact

2. What could you do to make your actions even more impactful?
 Involve more neighbors in my actions
 Make my actions more visible to neighbors
 Help the community understand why it is important to keep pollutants out of our stormwater system.
3. How will you go about achieving this impact?
 Talk to my neighbors in person
 Hang more posters or hand out more fliers
 Share news about these actions on social media
 Organize a neighborhood clean up event
 Other
4. Will you continue to take action in your neighborhood to reduce pollutants entering the stormwater system?
 Yes! This program changed the way I see the stormwater system.
 Maybe, if I happen to see it and it is convenient.
 Probably not.
